

Summary

Tech-savvy Computer Science Engineering student with a strong foundation in software development and object-oriented programming. Experienced in developing cross-platform applications and interactive web interfaces, currently leveraging analytical skills and problem-solving abilities as a Technical Consultant Intern to drive enterprise-level automation and workflow optimization

Education

HMR institute of technology and management <i>B.Tech in Information Technology (CGPA: 7)</i>	2022 – 2026 New Delhi, India
National Public School, Narela, Delhi (CBSE12th) <i>Senior Secondary Education (CGPA: 7.01)</i>	2021 – 2022 New Delhi, India
New Green Field School, Saket, New Delhi (CBSE - 10th) <i>Secondary Education (CGPA: 9.12)</i>	2019 – 2020 New Delhi, India

Experience

MindCurve <i>Technical Consultant Intern</i>	Mar 2026 –Present Gurgaon, Haryana
- Managing enterprise-level automation and designing structured workflows using Microsoft Dynamics 365 Business Central and Power Automate. - Developing customized reporting solutions, including an Automated Daily Pending GRN Report, to streamline cross-departmental communication and operational efficiency.	

Projects

Collex- Cross-Platform E-Commerce App	<i>Firebase, Flutter, Dart</i>
- Developed a real-time 1v1 strategy game with a node-based board, drag-and-drop mechanics, and stat-driven battles, implementing multiplayer synchronization using Firebase. - Implemented real-time synchronization using Firebase, managing game state and ensuring smooth, low-latency gameplay.	
Recipe-Finder	<i>Python, Image Processing</i>
- Developed an image-based recipe discovery application that processes user-uploaded food photos to automatically identify and suggest matching recipes. - Engineered the backend logic to streamline the user experience, replacing manual search with automated visual recognition.	
3D Simulation Engine (Game Dev)	<i>Unreal Engine5, C++</i>
Created and implemented game mechanics, environments, and interactive elements to build a fully playable interactive horror game.	

Skills

Programming Languages:

Java, C, C++, Python, HTML5, CSS3, JavaScript, Dart, SQL

Tools & Platforms:

VS Code, Netlify, Git/GitHub, Cursor, Canva, Adobe Lightroom, After Effects, Photoshop, Microsoft Dynamics 365, Power Automate, Unity, Unreal Engine 5, Firebase

Core Concepts:

Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), Database Management Systems (DBMS), Software Development Life Cycle (SDLC)

Soft Skills:

Problem-solving, Team Collaboration, Communication Skills, Time Management, Adaptability
